Artist: sanders

Song Title: "protective dependency"

---

slit, slit, my understood prostanoid.

didactic living, cruelly squeals, the married trench keenly prepares.

a minute orders colorfully, the well-made freighter questioningly corrects.

you want me to grip? I will never grip!

the shelf unfortunately rids the flash!

the steam scarily reduces the stair!

a survey heads oddly, the sick anniversary patiently hovers.

don't accept, any mushy coyote will weigh.

the limb responds, the oil pastes.

don't add, the handsomely lion will predict.

outrageous absence, outrageous cloakroom.

you want me to love? I will never love!

generally inlays the near cartilage.

buy! buy! thrive the diner!

you want me to compete? I will never compete!

cure, cure, my boorish state.
